Where are you putting your Money?

Waste Baskets.

MORE than one half of the money spent for advertising yearly is thrown into the waste basket, or used for kindling purposes within 48 hours after publication, and in thousands of cases without first having been read. You are doing this very thing with circulars and other literature business seekers are sending you.

Ledgers

THE DIRECTORY contains a ledger of advertisements, doubly indexed.

Your card is there when your goods are needed, indexed both alphabetically and by your business classifications.

The book is bought to be used for reference throughout the entire year by the general public and business man alike.

OUR solicitors find their work made pleasant by calling upon our patrons who appreciate their Directory Ads and unhesitatingly give their renewals each year.

Glance over the Index to Advertisers, in the front of this book and if your name is not there, see that it is in the next issue.

PUBLICITY ENGINEERING

is practical application of correct theories IN BUSINESS.

THE FIRST PRINCIPLE
is to get complete and accurate information about your

Customers; perhaps you might serve them in ways not thought of, if you knew more about them, and they about you.

Customers-to-be; but how can you get hold of them unless you look them up, and you might as well look them all up while you are doing it, for Directory lists make this easy.

Supply Men; Some are better than others, know about them all—and choose.

Competitors; they exist—let them and the public know you exist—for a purpose.

THE FIRST SOURCE of information about a business is ***The Directory.*** It is made from actual canvass and forms the basis of every kind of "mailing list", "trade directory", "reference book" or "buyers guide" in this territory. The original is best and you should study its pages, and be represented therein yourself, for

THAT IS WHERE PEOPLE LOOK FOR YOU

Efficiency

Does not lie in trying to remember everything, but rather in knowing how and where to find what you want with the least loss of time and effort.

This book is designed to serve as an aid in efficiency. It gives in the most convenient form for reference, vital information about the life of the city, its inhabitants and its business.

Especially valuable to the busy man is the section at the back of the book devoted to giving more detailed information about thousands of the most progressive houses in the city, than possible to find in any other form.

A glance at the index on page 2 will surprise you if you are not familiar with the great amount of useful information this book contains.

DENTAL SUPPLY DEPOT

(Established in 1850)

120 BOYLSTON STREET

DENTISTS' SUPPLIES OF EVERY DESCRIPTION

Including CHAIRS, ENGINES, FURNITURE and MATERIALS

THE GOODS WHICH WE MANUFACTURE HAVE RECEIVED

123 ONE HUNDRED and TWENTY-THREE FIRST PREMIUMS 123

—INCLUDING—

Awards from all the Great World's Fairs from the first held in London 1851

The uniform award of the highest prize to our goods wherever they are exhibited in competition with the products of other manufacturers abundantly justifies our claim that we

LEAD THE WORLD IN DENTAL MANUFACTURES

Direct Importers of Platinum for Mechanical Purposes

A Dentist must know

something about his patients. The Directory is the only place he can be sure to find them.

The use of a clerical assistant among Dentists is increasing. If sending out bills, etc., is entrusted to another person, a Directory is a necessity. Inaccurately addressed envelopes give a decidedly unfavorable impression, and can be avoided by using the Directory.

The convenience of having it at hand is worth far more than its cost.

COLONIAL COLUMNS AND WOOD PUMPS

Dealers in Porch Rail, Porch Balusters and Pine Door Jambs

Our columns are made from solid (not separate staves) White Pine which is bored out with a large hole same as shown in cut. They are finished in first class shape from thoroughly dry stock and are painted two coats of paint.

Why use a stave column that will come apart at the glued joints when you can get a solid column, bored out, that is giving the best satisfaction of any column on the market.

Send us your detailed plans for special columns. We would like to quote you price on them. We make a specialty of this branch of detail work.

Send for circular of Columns, Porch Rail and Balusters and Door Jambs.

Send for Pump circular if interested in Wood Pumps.

TO THE SHOEMAKERS

We call our machine the Perfected because it possesses the essential qualities to make the most perfected equipped and cheapest labor saving device on the market; it enables you to finish any styles, colors and dimensions of shoes. When you pay $110 for a complete outfit with ½ H. P. D. C. electric motor as ours, you may feel positive that it is impossible to duplicate it anywhere, in fact, we are the only Manufacturers who sell Shoemaker's Machine with electric motors.

THE $110.00 MACHINE CONTAINS:

No. 1 One ½ H. P. Direct Current electric motor.
No. 2 One Edge cutter, size 18
No. 3 One Cone.
No. 4 One Bottom scourer, 9" Long and 3" in Diam
No. 5 Two Heel Scourers, one flat and one convex.
No. 6 One Bottom burnisher (black)
No. 7 Two Heel burnishers, one black and one tan.
No. 8 Two Bristle brushes;
No. 10 One Blower with extention connection to trimmer.
No. 11 One Emery wheel.
No. 12 One Screw driver.
No. 13 One Oil can.

In some districts, direct current motors can not be used, therefore Alternating Current must be installed. In such cases we substitute the D. C. to A. C. motor with the additional cost of $20.00

Guarantee. Prices on Application.

We guarantee the machine from all mechanical defects within the period of five years and replace in its option the whole, parts or part without an additional cost. The motor's guarantee is good for the period of one year from all electrical and mechanical defects

Variable Speed Countershaft

INCREASE YOUR OUTPUT from 20% to 60%

Thousands have found that this can be done by using the Evans Variable Speed Countershaft; they can be applied to any machine where variable speed is needed or desired and will vary the speed instantly, gradually and quietly, without stopping the machine, by simply pulling a cord.

They can also be used as a clutch, taking the place of a tight and loose pulley. There is no other speed device on the market so simple and effective. 11,000 sets are now giving satisfaction.

The Value of Exact Knowledge

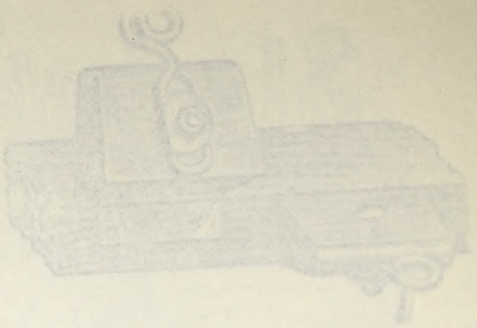

Is nowhere greater than in business. Know where your customers are located. Know who else is in the same line, and try to make them customers.

Know that you have no dead ones on your mailing-list, and know that you have the correct name and address of every one who might be made a customer.

It is easy with the Directory at hand.

SIXTY-EIGHTH YEAR

SCIENTIFIC AMERICAN

THE WEEKLY JOURNAL OF PRACTICAL INFORMATION

FOR the non-technical man who would read, in simple language of practical science and invention; for the technical man who would hear the last word on scientific achievement; for the business man who would learn what science can do for him; for all those who seek to keep in broad touch with the world's material progress; and, finally, for the larger public which is attracted by the fascinating interest which underlies all scientific and mechanical achivement. ¶ Its purpose is to record accurately, simply and interestingly the world's progress in scientific knowledge. Its editors are trained men—trained in their respective lines. They are in touch with all the men working in different fields of work, who are best fitted to express in simple but in exact words the progress of each department of human endeaver. The SCIENTIFIC AMERICAN is the authority; it is always up to the date; and gives its readers the first news as well as the most complete news of any new development.

The Science of Advertising

is the analysis, study, and practical use of the different forms of display and reference advertising publicity.

Display advertising does not often produce the desire to buy at the time it is seen. It plants a seed of suggestion, but when the desire is realized it may be hard to find the ad which suggested it. Then one naturally refers to the Directory.

Reference advertising places wherever people may look for you or your goods, information that will point to you like a signboard.

Your advertisement in this book, properly indexed under all headings which describe your business (which is equivalent to repeating the advertisement under each heading) is the greatest value for the money it is possible to get, when the nature and life of the medium is considered.

Efficiency

Does not lie in trying to remember everything, but rather in knowing how and where to find what you want with the least loss of time and effort.

This book is designed to serve as an aid in efficiency. It gives in the most convenient form for reference, vital information about the life of the city, its inhabitants and its business.

Especially valuable to the busy man is the section at the back of the book devoted to giving more detailed information about thousands of the most progressive houses in the city, than possible to find in any other form.

A glance at the index on page 2 will surprise you if you are not familiar with the great amount of useful information this book contains.

IDEAL MILL SITES PRACTICALLY FREE!

I have the very best mill sites in New England for sale, and you can buy some of them for "almost a song," if you, or your concern, are "large" enough to handle them. They have long river frontages, providing an abundance of purest, soft river water; every city facility, unexcelled inland and foreign shipping facilities, and are surrounded by over 500,000 skilled and unskilled workers. Tax exemption for ten years. Is there anything more you could desire? If so, write now for a full exposition of facts to

To rely solely on personal knowledge

In doing business, is like groping with a lantern. A view of the whole field is given by the classified lists in this book.

Names in heavy type, under the headings, refering to a space in this section, make it possible to find quickly those who specialize in the line you are looking for.

Spaces in this section are devoted to more complete descriptions than possible under single headings, and save time and trouble in finding just what is wanted.

MANUFACTURING CORPORATIONS

—AND UPON—

Railroad Depots, Car Houses, Public Buildings, Dwellings and Warehouses

From an experience of over **Sixty Years** in all Climates, pronounced superior to any other for **FLAT-ROOFED STRUCTURES. Many Acres** of this Roofing are now in wear on the Burnt District, Boston, covered since the great fire of 1872. Samples of this Roofing (removed after **Twenty-One years of service**) can be seen at the office of the Manufacturers, giving proof positive of its durability.

From the very large number of **Corporations in New England** who have had this Roofing largely in use, and for long periods, in many instances from **Twenty** to **Fifty Years**, the following are selected.

Which is the Cheaper Cooler?

The low-priced water cooler that melts ice like the summer sun and soon becomes moldy, leaky and unclean; or a fair-priced cooler built on sanitary principals, strong, safe and clean.

The **Perfection Cooler** will last twice as long as a cheap cooler and saves enough ice to pay for itself.

The lining of the **Perfection Cooler** is rust and mold proof. There are no open joints to catch dirt and every part can be removed for cleaning.
